International brand build quality

Quick and easy installation

Standard and bespoke build sizes

Fully weatherproof inside/outside

Whatever your needs

Made to measure

We provide a complete range of standard and bespoke, modular build, chilled and frozen rooms to suit any specific application. Our modular coldrooms can be designed around your particular space, inside or outside your building.

Outstanding brand quality

Combining brand quality with outstanding workmanship, our product range provides any temperature, size and shape coldroom to suit any application.

Clever construction

All cold stores are delivered and then constructed on site, which reduces the cost of delivery and allows for doorway delivery to simplify installation in small kitchen and production areas.

Increased capacity

Our coldrooms can provide up to 4.2m freestanding widths, giving plenty of room for stock rotation/picking and can be made larger, if required, with additional support via beams.

Nationwide service

We offer pro-active service, maintenance and breakdown cover 365 days a year.

Benefits of finance packages:

- Greater flexibility
- Predictable expenditure
- Reduced costs
